CHIEF MEDICAL OFFICER | VICE PRESIDENT OF MEDICAL AFFAIRS

Dedicated Physician and effectual Chief Medical Officer who represents the voice of quality care, practices patient-first accountability and process-integrity while running a medical facility.

Lead physicians in significant health care paradigm shift away from *hospital performance* and to *patient outcome*, focused on evidence-based care to reduce clinical variation while instructing physicians to employ performance data as their means of quality measurement.

Oversee and advocate for medical staff, hospital administration and Board of Directors regarding A big picture visionary who listens actively and thoughtfully and seeks common ground to align medical professionals, administrators and insurance companies in delivering high-quality healthcare to local community members.

Represent the hospital's interests in reducing the C-section rate, Medicare readmission rate, mortality rate and cost of care.

CHIEF MEDICAL OFFICER HIGHLIGHTS

- ▶ Implemented a margin improvement plan, which resulted in a \$4.8M savings since June 2018.
- ▶ Led the transition to new hospitalist medicine services which improved team-based patient care.
- ▶ Partnered with Chief Nursing Officer to institute an organization-wide daily safety huddle lowering patient-safety issues.
- ▶ Instituted tele-stroke, tele-neurology and tele-psychiatry services to enlarge local access and provide more timely care.

PROFESSIONAL APPOINTMENTS

CHIEF MEDICAL OFFICER

DATES

XYZ Health | USA, USA

A community health system operating a 75 bed hospital with an Emergency Department (ED) that sees 40K visits per year, includes primary care and specialty physician practices with 34 practitioners, a cancer center, a home health agency and a PACE program. Responsible for 128 active medical staff members and 453 credentialed staff members.

Collaborate with Emergency Medical Services (EMS) and behavioral health care providers to proactively address the economic challenges and limited resources faced by Randolph Health.

Direct overall organizational quality, infection prevention, medical staff affairs, and clinical documentation to accurately designate patient status. Advocate on behalf of medical staff, hospital administration and Board of Directors in matters of XYZ. Facilitate medical staff committees, run medical staff affairs, credentialing, and monitor peer review.

Supervise contracted clinical groups (ER Physicians, hospital medicine service, anesthesia,) to resolve clinical issues and establish performance metrics. Presided over the Ryan White HIV and Community Alternatives Programs. Confer with Director of XYZ to evaluate variance reporting, accreditation and risk management.

KEY ACHIEVEMENTS

2013 TO PRESENT

- ▶ Established timely treatment and added specialty services, which enlarged market share and increased volumes.
- ▶ Delineated staff roles and responsibilities, providing seamless patient care and improved team-based patient care.
- ▶ Issued a corrective plan regarding the Emergency Medical Treatment & Labor Act without interrupting accreditation.
- ▶ Helmed ED physicians, hospitalists and orthopedic surgeons to create various specialty Co-Management Agreements.

BOARD CONTRIBUTIONS

2003 TO PRESENT

- ▶ Started an orthopedic service line, the result of which led to increased market share and local patient care
- ▶ Created a Board level Quality Committee, which increased board oversight and quality improvement activities.
- ▶ Founded Cancer Center, which provided much needed local cancer care for community members' health.
- ▶ Ran \$6M major renovation of ED: tripled the ability of Emergency Dept. to accommodate the fast rising volume.
- ▶ Constructed a \$25M new out-patient center, which expanded clinical services and improved patient access.
